## **New Appointment at Meridian Design Build**

Paul Chuma, President and Howard Green, Executive Vice President are pleased to announce that Peter Stadler has been promoted to Vice President of Meridian Design Build.

As Vice President, Stadler will be responsible for overseeing the design and construction process, coordinating the day-to-day activities that make each project a success. He will also be responsible for the development of new projects and working with clients to ensure their needs are met throughout the conceptual planning, design and construction stages.

Stadler has personally been involved in the planning, design, construction and successful occupancy of more than 25 facilities with a total square footage in excess of 13.7 million square feet. He also has significant experience coordinating the design, permitting, and construction of infrastructure projects involving municipal utility extensions, detention facilities, flood plain reconfigurations and roadway construction. He is a Registered Professional Engineer in the State of Illinois and the State of Wisconsin.

Currently, he is managing several projects including AMB Remington Lakes Distribution Center, a 228,000 square foot industrial speculative facility for AMB Property Corporation in Bolingbrook, IL; Morey Corporation Innovation Center, a 26,000 square foot office and engineering center expansion for Morey Corporation in Woodridge, IL; and Paragon Business Center, located in Romeoville, IL, including the infrastructure (48 acres), Building D-1, a 45,000 square foot multi-tenant speculative office and warehouse facility and Building G-1, a 29,000 square foot industrial condo facility for First American Properties.

Meridian Design Build offers full-service design/build and general contracting services to the manufacturing, distribution, office and commercial markets. Meridian offers a full range of construction services, including all phases of construction planning and management, from conceptual design and budgeting, through project completion. More information on Meridian Design Build can be found at [www.meridiandb.com](http://www.meridiandb.com).
