Meridian Design Build recently completed construction of an 81,543-sq.-ft. self-storage facility in Wheaton for The Lock Up. The building, adjacent to the Main Street Marketplace shopping center, is located at the northwest corner of Main Street and Geneva Road. The new four-story facility offers climate controlled and drive-up units and features covered loading bays with secure access to accommodate the needs of its clients.

Architectural services were provided by Partners in Design Architects and civil engineering work was completed by Watermark Engineering Resources, Ltd.
