

Meridian Design Build breaks ground on 76,000-square-foot expansion at Wisconsin plant

November 21, 2013 | Staff Writer

Meridian Design Build recently broke ground on a 76,320-square-foot expansion to an existing seasoning plant in Sturtevant, Wis., for Kerry Ingredients & Flavours. The design-build project will be completed in the middle of Summer 2014.

The warehouse addition will include 10 new loading docks and a secure spice storage area. This is Meridian Design Build's fourth project for Kerry Ingredients & Flavours since 2010.
