# Meridian Completes 48,200 SF Warehouse Expansion for GE Healthcare in Oak Creek, Wisconsin

POSTED ON FEBRUARY 19, 2018 BY KRISTIN HILLER IN INDUSTRIAL, MIDWEST, WISCONSIN

*The facility now totals 328,028 square feet.*

OAK CREEK, WIS. — Meridian Design Build has completed construction of a 48,200-square-foot warehouse expansion for GE Healthcare in Oak Creek, about 15 miles south of Milwaukee. The facility now totals 328,028 square feet. The project features LED lighting, six loading docks and two doors connecting the new space to the existing building. GE Healthcare uses the building as a repair operations center, and the expansion will be utilized to house spare and repaired parts for the company's equipment. Construction began in late August 2017 and was completed in January. Harris Architects provided architectural services while Pinnacle Engineering completed civil engineering work. Exeter Property Group owns the building.
