*The property is located at 14700 Foltz Parkway.*

STRONGSVILLE, OHIO — Meridian Design Build has completed construction of a 185,210-square-foot industrial building for developer Scannell Properties in Strongsville, a suburb of Cleveland. The property is situated on a 21.8-acre site at 14700 Foltz Parkway. The multi-tenant building features 28 loading docks, two drive-in doors and parking for 164 cars. The design of the building incorporates a thermoplastic polyolefin roof and LED lighting. Precept Design provided architectural services, while Weber Engineering Services completed civil engineering work.
