MERIDIAN SELECTED TO CONSTRUCT 239,000-SQUARE-FOOT FACILITY IN ILLINOIS

ROMEDEVILLE, ILL. — Scannell Properties has selected Meridian Design Build to design and construct a new 239,000-square-foot industrial facility in Romeoville.

The new building will serve as a ground distribution and package sorting center for Scannell's tenant, a global provider of shipping and information services.

The company plans to invest \$37 million in the new facility. The new building will be located within Pinnacle Business Center and construction is slated to be complete in the fourth quarter of this year. The facility will include an automated conveyor system and 101 loading docks. Pete Schmidt will lead Meridian Design Build's project team. Precept Design will provide architectural services.
