MERIDIAN TO COMPLETE 14,626-SQUARE-FOOT RENOVATION OF ORTHOPEDIC FACILITY

ELK GROVE, ILL. — Deerfield, Ill.-based Meridian Design Build was selected to complete the renovation of a 14,626-square-foot facility for Barrington Orthopedic Specialists, located at 120 E. Higgins Rd. in Elk Grove Village.

Construction is currently underway on the project, which includes the full renovation of an existing, single-story office building to accommodate new exam rooms, cast rooms, imaging areas, rehabilitation facilities and a physical therapy gym. A building addition also will be constructed to include waiting areas and a covered patient entrance/dropoff area. Project manager Bob Kolcz and Fred Jennings, general superintendent, are coordinating the project for Meridian. The space will be designed by Arete-Knight.
