Construction

Highland Baking Co. has selected **Meridian Design Build** to design and construct new corporate office space at the company's existing HQ at 2301 Shermer Road in Northbrook. Meridian will manage the selective demolition and construction of 13k-SF of office space in an unoccupied single story building attached to the main plant. Improvements include: design and installation of a new high efficiency HVAC system; and eco-friendly high power factor energy saving ballasts with motion sensor-controlled lighting. Meridian's **Fred Jennings**, General Superintendent and **Joe Blanchard**, Project Manager, will handle the project. The architect is **A+M Architects**.
