

Goldberg

Adam Goldberg has joined **Meridian Design Build** as project engineer. He is a 2002 graduate from the University of Michigan, located in Ann Arbor, where he received a bachelor's degree in civil engineering, concentrating on construction management.

Prior to joining Meridian Design Build, Goldberg was with Chicago-based Sargent and Lundy. As project engineer, Goldberg will be assisting in the project management of two new industrial facilities totaling 73,000 square feet and park infrastructure improvements at Paragon Business Center, a new development located in Romeoville for First American Properties LLC.
