

## **MERIDIAN DESIGN BUILD TO CONSTRUCT FACILITY**

*Chicago* — Meridian Design Build has been selected as design/build general contractor for a 37,942-square-foot industrial facility, which will be located within the Stockyards Industrial Park in Chicago. The building, which is scheduled for completion during the second quarter, is being constructed on behalf of Gypsum Supply Co. In addition to warehouse and distribution space, the facility will include 3,000 square feet of offices/employee support areas, as well as a production showroom. Cornerstone Architects is designing the project.
