

SAUK VILLAGE BUILDING A

Developer/Owner: DP Partners

Contractor: Meridian Design Build

Location: LogistCenter® at Sauk Village
Sauk Village, IL

Size: 496,260 square feet

Type of project: Speculative industrial facility

How does this project demonstrate that the construction industry is changing?

Meridian constructed this project meeting DP Partners' recently launched "4 Green" program, which included:

- Minimizing and recycling construction waste.
- Installing clerestory windows to increase natural light in the building.
- Painting interior warehouse walls white, using low VOC paint, to improve lighting efficiency.
- Using T-5 fluorescent lighting system with motion sensors.
- Using regionally sourced materials and materials with high recycled content.
