

Meridian DESIGN BUILD

Meridian Design Build is a full-service construction firm that specializes in coordinating the design and construction of warehouse/distribution, manufacturing, office, healthcare, commercial, and hospitality facilities.

With a team of experienced in-house project managers, Meridian Design Build offers a wide range of construction and project management services, from site due-diligence and infrastructure planning, through conceptual design and budget development to project completion and facility turnover.

Meridian Design Build is committed to understanding the needs and objectives of their clients while working on their behalf to ensure that the highest possible level of service is provided with respect to cost control, scheduling, project delivery, and quality control every step along the way.

Meridian Design Build is a proud member of the U.S. Green Building Council.
